Auckland 2163

Dear Barry,

APPROVAL and RECOGNITION of Dairy Maintenance Compound

The product **Galmet Duragal Spray** has been considered in conjunction with the independent assessment report provided and determined to satisfy the requirements of regulation 30(3) of the Animal Products (Dairy) Regulations 2005 and regulation 43 of the Raw Milk for Sale Consumers Regulations 2015, when used in accordance with the label.

The product **Galmet Duragal Spray** has been assessed and is approved for use in farm dairies and recognised for use in dairy premises when used in accordance with the label instructions.

Approved Conditions:

1. To be used in accordance with label instructions as a surface coating – not for milk contact
2. Must not be used on milk contact surfaces, CIP or service line surfaces
3. Must not be used in areas where milk is exposed or stored, including milking and milk storage areas
4. Should incidental contact with milk contact surfaces occur then the surfaces must be thoroughly cleaned and rinsed to ensure no residue remains
5. The surrounding area must be out of service and well ventilated during application/use

Recognised Conditions:

1. To be used in accordance with label instructions as a surface coating – not for product contact
2. Not to be used on food contact surfaces, CIP or service line surfaces
3. Must not be used in areas where milk, dairy material, product or ingredients are exposed
4. Should incidental contact with milk or food surfaces occur, the surfaces must be thoroughly cleaned and rinsed to ensure no residue remains
5. The food area must be out of service and ventilated during application

Where this **approval** is stated on the product label, the statement “MPI approved for use in farm dairies” is to be used, unless an alternative is agreed in writing by MPI.

Where this **recognition** is stated on the product label, the statement “MPI recognised for use in dairy processing” is to be used, unless an alternative is agreed in writing by MPI.

Should this product be determined to be unsatisfactory when used as recommended by the manufacturer or an agent of the manufacturer at the stated dosage, MPI may withdraw this approval and recognition.

Review

This approval & recognition is valid for a maximum period of 5 years but is subject to periodic review and may be withdrawn at any time should the Director-General determine that there is sufficient evidence that the products are not fit for the purpose for which this approval & recognition applies. You will be issued a letter prior to the review date, which is set at **22 May 2024** but you are responsible for ensuring that this review is completed if you wish to retain MPI approval & recognition of the above dairy maintenance compound.
